

Short Courses

Over the last 25 years, SMART personnel have arranged courses for over 25,000 students on a wide range of subjects, from basic craft level up to Management development programmes for Chief Executives, and to Masters degrees and PhDs for academics and technical specialists. This work has given SMART personnel a unique knowledge of available training throughout Europe and North America. From this we developed our core of specialist instructors, professors and technical teachers, who are available, and will deliver specialist technical or management training in your own offices or on site training facility. Our specialists are all qualified and experienced trainers with a proven track record. SMART-LIBYA can supply specialists in any training discipline, and we will deal with all visa, transportation, accommodation, shipment of training equipment to the site where the training will take place. We will deal with the entire project including all administration. Our database of courses, (see hyperlink to course provision), lists thousands of programmes. These are all courses which have previously been arranged by SMART personnel.

We can supply courses worldwide in the following subjects:

- Management
- Engineering
- Accountancy & Finance
- Petrochemicals
- NDT, Corrosion & Inspection
- Electrical Maintenance
- Materials management
- Health & Safety Management
- English Language
- Geology
- Mechanical Maintenance
